

Adding pictures or other files to Google Classroom

1. On the assignment page, click add '+ Add or create'.

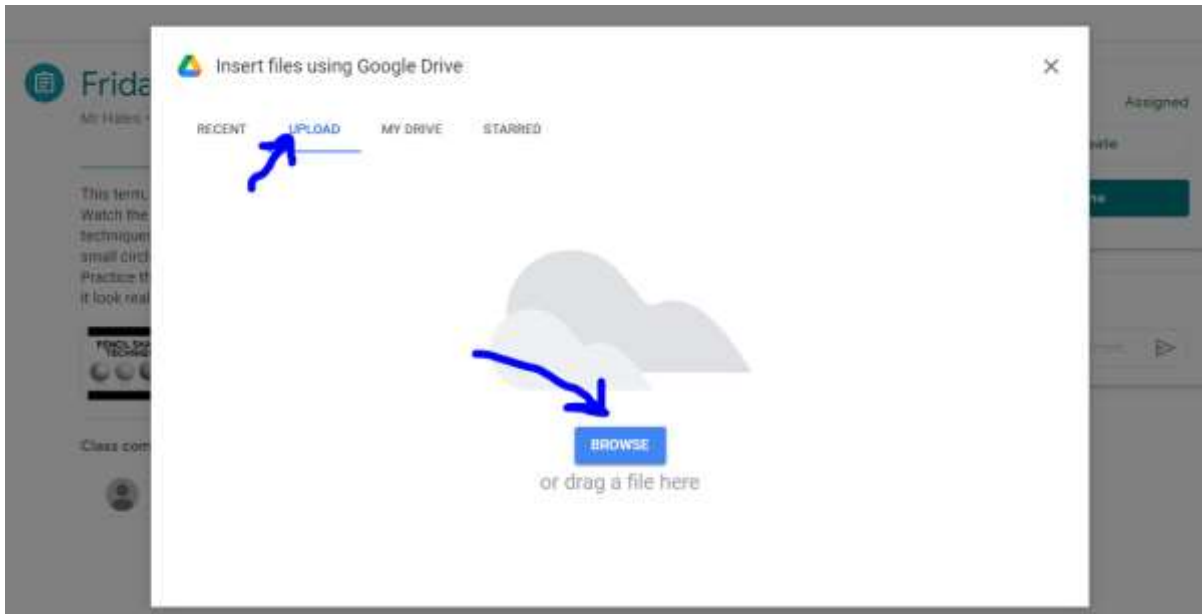

The screenshot shows the 'Friday Art' assignment page. The 'Your work' section is on the right, with the '+ Add or create' button highlighted by a blue arrow. Below it is a 'Mark as done' button. The 'Private comments' section is also visible.

2. Click on 'File'.

The screenshot shows the same 'Friday Art' assignment page. The 'Add or create' dropdown menu is open, and the 'File' option is highlighted by a blue arrow. Other options in the menu include 'Google Drive', 'Link', 'Create new', 'Docs', 'Slides', 'Sheets', and 'Drawings'.

3. Click on 'Upload'. Then click on 'Browse' to search for the picture or file that you would like to send on Google Classroom.

4. Your picture or file should show in the box on the right of the screen. Then click 'Turn in', which will then submit your picture or file to the class teacher for them to view (just like a Google doc).
